The Two Paths.

"Come George—just a drop at parting. Heaven only knows when we may meet again. You are to settle among the hills of Berkshire in the West, and I amid the vales of Middlesex, in the East. Just a glass to our success."

"No Malcolm: if I would accept a true pledge of success I must not find it in the wine cup. I hold the cup as a signal of failure."

They were young men both of them—just admitted to the bar, and ready to enter upon the practice of their profession.

And on this bright, crisp autumnal afternoon George and Malcolm were to separate. They had selected their fields of labor, and were prepared to enter upon the work.

"Pooh!" cried Malcolm, in response to his friend's last remark. "There's promise in bright wine if one only knows how to use it. Come and take a parting glass with me."

"No, Malcolm—you must not ask me. Were I to take the cup to my lips, I should fear it as I might fear a viper taken to my bosom."

"Do you mean to say that you are going to be a teetotaler?"

"Upon that course I am resolved, and let the future decide between us!"

And shortly after this they parted.

Malcolm Carling removed to Middlesex county, where he very soon gained for himself a host of friends and an extensive practice. His intellect was brilliant; his wit was ready and caustic; his humor was rich and exuberant, and his flow of language was from the fount of thought and imagery that never failed. His path seemed a pleasant one indeed. Only flowers of rarest colors and most exquisite fragrance hedged it, while sweet music kept time to the dropping of the glittering sands in the glass. It was the path he had chosen from the first. Its goal was the highest possible plane of social life, and the presiding genius was the spirit of the wine cup.

He reached the goal ere he knew it. All the joys of life he had chosen had been tasted ere he reached his prime. A brief space, and the flowers began to wither; the thorns protruded, bare and sharp; the sweet music grew fainter as discordant notes crept in to mar and break the harmony; and the sands of the glass—drooping, drooping, drooping—had lost their glitter, and now fell darkly and solemnly into the back flowing tide of the time that was lost.

George Nixon Briggs established himself in Berkshire, and pursued his path in the way he had chosen. All that he was he owed to his own endeavors; and all that he could hope for in the future must come through the same channel. At the age of thirteen he had been apprenticed to a hatter, at White Creek, New York, where he remained two years. At the age of fifteen his brother had taken him from his hatter's shop and sent him to an academy. In one year thereafter, his brother had died, from which time he had been left to steer his own chart.

True to the loftier instincts of his nature, he had selected the path of honor and moral duty, feeling assured that if he sought first the kingdom of God and his righteousness, all other things would be given unto him. He was a social man—pre-eminently so—and a more genial companion never blessed the social circle; but he did not prostitute his higher nature to the allurements of the festive board; nor did he allow himself to be deceived by the false glitter of the bacchanilian tinsel. He lived true to the early pledge he had taken—the pledge of total abstinence from intoxicating liquors—and the longer he lived the more reason he had to bless God for the choice he had made.

At the age of thirty he was elected to Congress from the Berkshire district, and in that capacity he was retained during six successive terms, declining further service in that direction upon being nominated to the office of Governor. At the age of forty-seven he was elected Governor of Massachusetts, to which office he was annually re-elected from 1843 to 1851.

It was a cold bleak day in March. Governor Briggs had just descended from his room in the State House, and was leaning against the railing that guards the statue of Washington, in conversation with a friend, when a page approached and handed him a note. He broke the seal and read. It was from the Mayor of the city, informing him that a man had been picked up in the gutter during the night by the watch, and was now pronounced to be dying of delirium tremens. "He says," wrote the Mayor, "that he knew you once—that you were his friend and school-mate. He will not give his name. If you would like to see him, come soon."

The Governor hastened down to the City Building, and with Dr. Smith, the city physician, he went down into the police station, where the poor waif lay.

Alas! he would never have recognized in that wasted, shattered wreck of humanity, the friend of his youth; but so it was. O! what a sad, sad sight!

"Has he any consciousness left?" the Governor asked.

"He has had one or two lucid spells; but the delirium has about spent itself. He can rave no more."

At this moment the sufferer started, and opened his eyes—dark, cavernous eyes, blearing ghastly, but with a gleam of intelligence in their sunken depths."

"Who spoke?" he demanded in a hollow, whispered tone.

"Malcom, it was I. Don't you know me?"

"The poor man struggled to raise himself, and the attendants helped him; and when he had been lifted to a sitting posture, with pillows at his back, he looked up.

"I know the voice," he said.

"And don't you know the face? Look at me, Malcom."

A little time, and something like a smile broke over the worn and haggard face.

"George! is it you?"

"Yes, Malcom. I am your old school-fellow. You surely remember me now."

Malcom Carling grasped the hand of his friend and gazed up into his face. Another faint smile crept in upon his scarred and tortured features, but it quickly faded away and something like a pearl glistened upon the drooping lashes.

"Malcom, what can I do for you?"

"Nothing—nothing, George. I am past help. I chose my own path and I have traveled in it—and here I am. But you—you. Ah! why should I murmur? You chose the better path, George—and there you are. You, Governor of Massachusetts; and I—I—"

The voice choked, the features were convulsed; a moment so, and then the eyes were opened, the smile flitted back, and he murmured, as his head sank, "*sic transit gloria mundi.*" He had reached the end of the weary way, and another wreck upon the terrible reef which a pernicious habit has reared amid the waters of life.

Governor Briggs told me the story of Malcom Carling as we sat together upon the platform on Boston Common, during the public reception of Father Mathew.

A Romance in Real Life.

The Sacramento *Bee* of November 3d is responsible for the following:

An incident came to our knowledge a few days ago, which may strike our readers as being quite romantic in its way: When Conductor ——, of one of the Central Pacific passenger trains, took charge of his train at Truckee, bound for this city one day last week, he noticed among his passengers a very pretty, modest appearing young lady, who seemed to be traveling alone. As the cars climbed the mountain, whirled through gorges and around precipices she sat at one of the windows and gazed out with an anxious look, as though she longed to reach the shores of the Pacific, where she might meet with friends or relatives. While passing through the car, the conductor thought he heard some one address him, and on looking around discovered that it was his young female passenger, who, with a bashful air, inquired if he was going through to Sacramento. On being answered that he was, she blushed still deeper, and said that she had rather a queer request to make of him. She said that she expected to meet at "the Junction," a gentleman whom she had never seen, but to whom she was about to be married, and requested the conductor to watch for him, and to introduce him to her if he should find him. For two years they had been in correspondence with one another—how it was first brought about she did not say—and it was finally arranged that she should come to California, and that her unknown friend should at once lead her to the altar. On sped the train through the tunnels and snow drifts and over yawning gulfs, but the soon-to-be bride neither thought of danger nor of the beauties and grandeur of the Sierras; she sat still and gazed wistfully down into the valley, where the muddy Sacramento was winding its crooked way toward the ocean and where she hoped soon to meet her mysterious lover. Station after station was reached, and finally "the Junction" came in sight. The conductor stationed himself on the platform of the front car and scanned the crowd that thronged about as the car neared the depot. A well dressed gentlemanly looking individual stepped forward upon the platform. He, too, wore a somewhat anxious look, and the conductor concluded that he had found his man. A tap on the shoulder and a low inquiry by him, and a quick, eager response from the stranger followed; the conductor was right. The train moved on and they entered the car. The meeting of the lovers we shall not attempt to describe, but will leave each of our readers—especially the young ladies—to draw such pictures as they may think the circumstances will warrant. From the Junction to the City we have no account of—the two fond beings were unmolested. A few moments after the train reached this city a carriage drove away from the depot, containing two persons, a gentleman and lady, whom the conductor recognized as his young lady passenger and the gentleman who met her at the Junction. The latter whispered to the driver to go straight to the house of Rev. Mr. ——, and they were lost to view. We read of such things in works of fiction, but it is seldom that they actually do happen.

KIDNAPPING AND MATRIMONY.—A singular case, in which the incidents appertaining to the course of true love, recently transpired in Colusa, which serves to corroborate the well conceived idea that it never runs smooth. For several months past a daughter of the Flowery Kingdom, with sparkling almond eyes, has resided in our midst, who answered to the poetical name of Miss Ah Hoe. She was a maiden of some sixteen summers. A native of the Sandwich Islands, who was employed in a flouring mill, and who responded to the name of Charles Gonge, became fascinated with the beauty and intellect of the aforesaid Miss Hoe, and visited her on sundry occasions. He took occasion to make known the sufferings of his heart. The maiden responded to his entreaties in a satisfactory manner, and it was agreed that the two should be made one. Last week a son of the land of

YOLO DEMOCRAT.

County Official Paper.

WOODLAND, CAL.:

Saturday, November 19, 1870.

DON'T BELIEVE IT.—Two prominent attorneys of San Francisco are said to have refused a fee of $10,000 for defending Mrs. Fair.

LUCKY AND LIBERAL.—Hellman, who drew the $100,000 Mercantile Lottery prize, has given $5,000 to San Francisco and $5,000 to New York charities.

KENTUCKY.—Kentucky sends an unbroken Democratic delegation to Congress. California will follow suit when the time comes round to afford her the opportunity.

A YEAR OF PLENTY.—The wheat crop is in excess of any year since 1860, and amounts in the aggregate, for the whole country, to between 210,000,000 and 250,000,000 bushels.

SENATOR CASSERLY.—This gentleman has returned to Washington to take his seat in the United States Senate when Congress reopens, which will be on the first Monday in December.

LOUSIANA.—The Republicans claim Louisiana by 30,000 majority. Whether this is correct or not, later returns will determine. It has doubtless been carried by the mongrel black and white party.

THE RAILROAD EXPRESS ROBBERS. It is stated that all the parties to the recent robberies of the trains on the Central Pacific Railroad have been captured and all the treasure but $1,000 recovered.

TENNESSEE.—Tennessee elects a Democratic Governor, Legislature and five Democratic Congressmen. It is thought Butler, of the First District (Republican), is elected. He is now under indictment for forgery.

CRIMINAL SQUANDERING.—The Radical party has been in power for nine years, and during that time has given away in subsidies $60,000, and 51,079,387 acres of public lands to railroad corporations. All stolen from the people.

LAKE COUNTY.—The valuation of property in this county, as returned by the Assessor, foots up as follows: Real estate and improvements, $809,100; personal property, $376,850. Total, $1,185,950. Population of the county, 2,840.

NOT A PAYING OFFICE.—The Collector of Vallejo, states, that under the law creating the office, his salary is but $350 per annum! There must surely be some mistake about this. An office under Radical rule at a yearly salary of $350!

GOVERNOR HOFFMAN FOR PRESIDENT.—The Napa *Reporter* hoists the name of that popular and sterling Democrat, Governor Hoffman, of New York, at the head of its columns as its candidate for the next President of the United States.

OHIO.—Ohio has just given a good Democratic majority of its white vote, but there were enough *black* Republicans to turn the scale against the White Man's party, and keep it in the control of the mixed party—the party of black and white—the mongrel party.

PETERS' MUSICAL MONTHLY.—We have before us the November number of this valuable magazine. It contains all new and valuable music, and is furnished to subscribers at $3 per annum, or $1 50 for six months. Published by J. L. Peters, 599 Broadway, New York.

INDIANA.—Indiana official returns show a majority for Colonel Eddy, the Democratic candidate for Secretary of State, of 2,508. The State officials elected are all Democrats; the four Judges of the Supreme Court, all Democrats; the Senate, a tie; and the House 58 Democrats and 44 Republicans.

BAPTIST COLLEGE.—The Solano *Republican* says that on the 1st of December delegates from all the Baptist congregations of the State will meet in convention at Vacaville for the purpose of taking the initiatory steps to organize a Baptist College. The buildings of the Methodist College have been secured by purchase.

DACOTAH. — Another change has taken place in Dacotah in favor of the Constitution, the Union and a government ruled and managed by white men. Scarcely an election occurs which does not show either a total defeat of the Radical party, or such a reduction in their majority as presages an early dissolution of that corrupt organization.

STABBING AFFRAY AT DIXON.—We learn by telegragh, that a serious stabbing affray occurred at Winkleman's saloon in Dixon, on the 15th, which will probably result fatally. Two Germans got into a quarrel, which ended in Stolenberg being stabbed by Carson with a knife, which entered the left side below the heart inflicting a dangerous and probably fatal wound.

PENNSYLVANIA.—We did not give enough credit to the gallant Democracy of the old Keystone State. From the Philadelphia *Age* we learn that the Democratic majority in the State, on the Congressional ticket will be over eight thousand. When it is considered that the negro vote (which must be ten or twelve thousand in the State) was cast solid for the Radical candidates, the importance of this victory will be doubly enhanced. Wherever the negroes have voted, in any Northern State, the Republicans have lost nearly or quite as many white voters as they have gained black ones.

THE LIVING ISSUE.

Our article "The Issue Defined," which appeared in the DEMOCRAT of October 29th, must have struck a very tender spot in the physique of our neighbor of the *Mail*, for in the number dated November 5th a desperate attempt is made to evade the issue by us laid down as what we conceived to be the paramount question between the two great political parties of this country. To disprove our position was impossible, but the home thrusts inflicted were so keenly felt by the aforesaid quill-driver, that he labored through a lengthy string of stale platitudes and worn out charges, without the slightest foundation in truth, against the Democratic party—all amounting to nothing, unless indeed they be construed into an admission of our position, because no proof or even argument could be brought against it.

The Amador *Ledger* of November 5th also felt the rebuke which "The Great Issue" brings home to the Radicals, and took up the cudgel with the evident determination of annihilating us at one fell swoop. The truth of our assertions has been reaffirmed in the late elections, wherein the real question was "whether this shall be a Government of white men, or whether it shall be given over to mongrelism." Cur joy at the result, together with a desire to place it before our readers, has alone kept us from these remarks till now. The *Ledger*, referring to our article, says: "We had supposed the Democratic party had bowed submissively to the logic of events, and that Sambo and Whiteman's Government would be permitted to sleep in the tomb where past events have placed them, but in this we are mistaken." Most decidedly mistaken, Mr. *Ledger*. Democrats are not made of that kind of stuff. A wrong principle is always bad in its effect, and our party does not propose to submit to wrong simply because "the logic of events" has given the Radical party power temporarily to *force* it upon the country. The lesson to be learned from the late elections is that the negro vote, instead of strengthening the Radical party has proved the means of weakening it; more white voters have left it and joined the Whiteman's party than have by the entire negro vote been added to the mongrel party. In several of the States, Ohio and New Jersey in particular, negro votes decided the elections and gave the government of those States to the mongrel party; while without the votes of the blacks, (or taking the white vote alone), the former would be Democratic to-day by at least 20,000, and the latter by perhaps 5,000 majority. In New York, Pennsylvania, Indiana, etc., not to mention the Southern States where the Democrats succeeded, the negro vote was pitted against them for the first time (except that in New York a few had previously voted under a property qualification), amounting to a great many thousands; but what has it availed? Nothing—absolutely worse than nothing. The superior race will not fraternize with the inferior; it is beyond the power of Grant and all his mailed minions to compel it. The result is, that thinking men in the Radical party are leaving the rotten hulk and affiliating themselves with those who respect the Caucassian race—the highest type of humanity—white men, Democrats, Conservatives; the party of the Constitution, of the Union, and of good government; the party which disfranchises no class of citizens for partisan purposes, as has been done throughout the South since the war; the party which opposes negro suffrage and will not give its assent to the manner in which it was brought about, namely, by force and fraud; the great party under whose management and sound government our country became great and glorious and is sought by the oppressed of all nations, and whose institutions receive the admiration of the whole world. To the standard of that party will the sound, thinking men of this country rally. Democrats do not seek negro votes, though in a few instances the more intelligent class may have cast their ballots for and with Democrats. On the other hand, they have been the special pets of the Radicals, were freed by them, enfranchised by them, pampered and petted by them, and will yet be ruined by them. We still maintain that the policy of the Democratic party is to oppose negro and Chinese suffrage, while the negroes vote with, and belong to the Radicals; and hence the issue. Only a few years ago that party as stoutly denied any intention to enfranchise the negroes as it now denies any such intention towards the Chinese; and judging by Sambo's present *status*, especially if we take into consideration the political *necessity*, it will not be long, provided the Radicals have the power, before John Chinaman will be as good a voter as the best of us. Fortunately, however, present appearances indicate that so dire a calamity will not be permitted to come upon us, but rather that this Government will be controlled and perpetuated by white men for at least another generation.

NEVADA.—Report has it that every candidate on the Democratic State ticket of Nevada is elected by a handsome majority, but the mongrels claim several of the minor candidates. The unscrupulous Fitch is defeated for a reëlection to Congress, by about 100 majority, and a good sound Democrat elected to succeed him. The Legislature is claimed by both parties.

EUROPEAN ASPECT.—The attitude of Russia is decidedly warlike, and in consequence England is arming and disposing her fleet so as to be ready for immediate action. The present aspect indicates a general European war, but for humanity's sake we trust it will blow over.

Western Shore Gazetteer and Commercial Directory.

This work, by Messrs. Sprague & Atwell, of this place, has received a partial examination, and we will say at the outset, deserves a more extended and general mention than we can at present devote to it, as it contains so much matter of interest to every inhabitant of this county particularly, with far more general information which will be of use to "the outside world" than any work of the kind ever issued on this coast. The book is printed in very good style by Bancroft & Co., San Francisco, and sold to subscribers at $3 in cloth, or $5 in calf binding. The press of the State all speak of it in highest terms of praise. All the Sacramento and Marysville dailies particularly have given it very favorable mention. Perhaps the best general idea of the work may be obtained from the editorial notice given in the Sacramento *Reporter*, which says:

"We have received a copy of the 'Western Shore Gazetteer,' a book of 600 pages, compiled and published by C. P. Sprague and H. W. Atwell, of Woodland, Yolo county. This volume contains a thorough history of that county; also a complete list of the names of every adult resident of the county, together with the place of birth, present residence, Post Office address, and value of property. It also contains a full business directory of that county, a succinct description of its resources, and the amount of the unoccupied lands. The volume contains a township map of the county. In fine, there is nothing one can desire to know about Yolo that is not to be found in this book. The volume under notice is but the initiation of a grand enterprise conceived by its authors, which we hope to see carried out, and no doubt will be, if the people patronize it as it deserves. The intention is to furnish, as rapidly as possible, a like Gazetteer for every county in the State. Such a work can but prove of incalculable value."

On a future occasion we shall doubtless make extracts from the "Gazetteer," for it contains a vast amount of statistical information which can be drawn upon with profit to our readers. Every business man of course will, and every family in Yolo county should certainly have a copy of it.

DRIVING THEM OUT.—The very best way to get rid of the Chinese swarms, who like locusts are devouring the substance of the land to the injury of our own race, is to refuse them employment. If our own people refuse to encourage them they will soon leave our shores, but so long as they are employed by white men at far better wages than they can obtain in their own country, they will of course flock hither to better their condition. It is stated that the Order of United Mechanics, of Vallejo, have determined not to patronize any man who in any manner employs Chinese. This may have a good effect. At any rate, a general determination on the part of the whites not to employ them at all would be sure to sicken them of this country, for where there is one who strikes out for himself there are a hundred who are acting as laborers or servants for the whites. Let every white man refuse to hire or patronize Chinamen in any way and it will have the same effect upon them as did St. Patrick's raid upon the snakes in Ireland—to drive them out of the country.

NEW JERSEY.—Gallant little New Jersey has fallen into the hands of the Philistines. A Democratic State fairly and squarely on the vote of its white citizens, it has, by the votes of the negroes, been transferred to Radical control. Is not this a nice state of things to behold in free, *enlightened* America! A few ignorant negroes are so used by the Radical managers as to control the political management of an entire State. And worse than all, it was brought about by fraud, in enforcing the "fifteenth abomination" upon the country without submitting it to a vote of the then qualified voters. It will have to pass for this once, however, but the next time that the State of New Jersey affords her citizens an opportunity to give an expression at the polls, her white men will rise in their might and determine to control that State without the aid of their "colored brothers." Sambo must take a back seat. The white is the superior race, and will control the political affairs of this country.

TRIAL OF THE LOCHER STEAM PLOW. The Marysville *Appeal* of the 16th gives this account of the trial of this invention, from which farmers can form some idea of its merits:

"A public trial of the celebrated Locher's Steam Plow was made yesterday in Oroville, and it proved a noted success. The ground plowed was but a small plot 100 by 450 feet, hardly large enough to allow of an exhibition of the best speed of the plow, as considerable time was lost in turning the corners at such short distances. Considerable interest in the undertaking was exhibited by those living in the vicinity and much satisfaction shown in the result. The plow carries fourteen shears, and takes a swath of about thirteen feet, traveling at the rate of about one mile and a quarter an hour, and on an average plows to a depth of ten inches."

THE *Examiner* innocently asks:

"Are the people of New York unfit to govern themselves?" We came to that conclusion when John Morrissey was sent to Congress by the good and virtuous people of that city.—*Chronicle*.

The above appeared in the Yolo *Mail* of Nov. 10th, since which time it has transpired that Morrissey, having been thrown overboard by the Democracy, has been nominated by the Republicans for Congress. Guess that takes the wind out of your sails on that tack.

CLOSE OF VOLUME.—The present number closes the third volume of this paper and the third year of its existence as the DEMOCRAT. In our next we shall take occasion to revert to its course during the past year, and perhaps also map out some plans for the future.

A Naval Battle.

A dispatch dated Havana, Nov. 14th, gives the following account of an engagement between two war vessels, one French the other German, which occurred a few days ago off that port:

"On the 7th the Prussian war steamer Meteor, carrying three guns, and the French war steamer Bouvet, carrying five, entered this harbor. The Meteor sailed out again after the French mail steamer Nouveau Conde, but the mail steamer immediately returned, fearing capture. On the night of the 8th the Bouvet left port, but waited outside for the German war vessel. After the expiration of twenty-four hours (the time prescribed by law) the Meteor followed, a naval duel having been arranged between the officers. The Spanish steamer Hernando Cortes accompanied the two vessels. The Meteor had a crew of sixty men and the Bouvet eighty. The Bouvet was ten miles beyond the offing. On the coming out of the Meteor, she steamed inwards toward the neutral line. The Bouvet opened the contest by firing five shots, which the Meteor promptly returned. The Bouvet then attempted to board the Meteor. In this she was unsuccessful. Her rigging became entangled, carrying away the main and mizzen masts, the rigging, falling with the masts, became entangled in the Meteor's screw. At the same moment the Meteor sent a shell into the Bouvet, smashing her steam-pipe. The Meteor, by reason of the disabling of her screw, became unmanageable, and the Bouvet finding her quarters hot and capture certain if she waited until the Meteor could disengage herself, set sail rapidly for port; the Meteor continuing to fire. Meanwhile, with a fair wind, the Bouvet was enabled to cross into Spanish water before the Meteor could disengage her screw. At this time the Hernando Cortes fired a gun as a signal that the combat was closed. Both fought bravely. The German gunboat was accorded the victory. Both vessels are in port repairing damages. The Meteor had three killed and one wounded, the Bouvet only three wounded. The Germans in Havana are much elated with the affair, which has caused intense excitement. The two Prussians, Carbonier and Thomsen, who were killed in the naval engagement, were burried here on the 10th, the German merchants attending the funeral in a body. It is now said the Bouvet left the scene of the fight under steam and sail. German residents are arranging for a grand banquet for the crew of the Meteor.

Survey of the Isthmus of Tehuantepec.

A dispatch dated Washington, Nov. 14th, says:

In answer to the application of the United States Government for permission to survey the Isthmus of Tehuantepec with a view to locate a route for a ship-canal, Minister Lerdo de Tejada writes to Mr. Nelson, the United States Minister at Mexico:

"President Juarez gladly grants permission to the surveying party to make the exploration, recognizing all the advantages which the construction of a ship-canal would produce if it should prove practicable. The Governors of the States of Vera Cruz and Oaxaca have been requested to inform the local authorities of those States to aid as far as possible the objects of the expedition, and to protect the exploring parties. Similar instructions have been sent to the military commanders at Minatitlan and other points on the route. The Department of Public Works will appoint a commission to accompany the survey and take part in its labor."

The tone of the correspondence is exceedingly cordial and satisfactory, and shows that the Mexican officials will earnestly co-operate in the work. The expedition passed Key West on the 31st ult., it will probably arrive at Vera Cruz to-day, when Captain Shufeldt will be informed by Mr. Nelson of the action of the Mexican Government.

THE ELLIPTIC SEWING MACHINES,

Warranted the Best!

The Elliptic Sewing Machines are manufactured and warranted by the Wheeler & Wilson Sewing Machine Company. The late and important improvements enable us to guarantee to every purchaser that the Elliptic Machine will do more work, better work, and a greater variety of work than any other Sewing Machine now in use. The economy of the Elliptic Machine in a family is almost incredible; with one, a good operator can do the work of twelve hands. By it, the making of garments is reduced from a question of hours to one of minutes, as the following table will show:

AMERICAN BROILER

The Finest Culinary Invention of the Age!

Embodying in a plain and cheap utensil—as simple as a pot or skillet, and weighing less than three pounds—

All the Principles involved in the Perfect Broiling of Meats,

With the Greatest Conveniences

And Advantages of Practical Use, and Doing its Work with

A RAPIDITY MORE THAN DOUBLE THAT OF ANY OTHER BROILER!

It affords to the poor and rich alike the FIRST and ONLY relief ever offered from the tedious, troublesome, juice-evaporating and dyspepsia-producing broilers of the past; from that deadly foe to human health, the FRYING-PAN; and from MEAT-COOKING ABOMINATIONS OF ALL DEGREES.

It renders broiling, heretofore so vexatious, the Quickest and Easiest of all modes of Cooking, and meats broiled by it

More Palatable and Nutritious

THAN BY ANY OTHER MODE OF COOKING THEM, because it prevents the loss of nutriment by evaporation or otherwise. It sets on top of the stove or range, over one of the openings; requires no preparation of fire; no coke or charcoal; no pounding of steak; renders tough meat tender by its action; does away with all smoke and smell of grease; broils equally well over coal or wood; answers for all sized stove or range openings, and is equally good for

Beefsteak, Chicken, Ham, Chops, Fish & Oysters.

It broils steak over an average fire in SEVEN TO EIGHT minutes, and over a very hot fire within FIVE MINUTES.

Other meats in proportion; and RETAINS all the juices and flavor, which no other broiler does.

SIXTY-FIVE THOUSAND NOW IN USE!

All sold under Standing and Unconditional Guarantees, and have given an unanimity of satisfaction unprecedented in the culinary inventions.

We guarantee them, wherever sold, to fulfill the above specifications, and authorize all dealers to do so with their customers. An universal test is invited on these terms; and to any not satisfied after a fair trial, the money will be refunded with charges both ways.

Each Broiler will have the authorized label attached, with the trade mark, "American Broiler," stamped thereon.

This Broiler is also an unequalled BREAD-TOASTER and CORN-POPPER, and a good COFFEE ROASTER.

Retail Price Only Two Dollars.

Fine MESH GRATE for Corn Popping and Roasting Coffee, if desired, 30 cents extra.

LIBERAL DISCOUNT TO THE TRADE.

For sale in San Francisco, by the House below named, in half-dozen and dozen packages, at the minimum rates, who will be responsible to the full extent or the above guarantees for all Broilers sold by them.

Town and County Matters.

UNITED ANCIENT ORDER OF DRUIDS.—We have on a number of occasions made especial mention of the rise and progress of this Order, from its inception to its present standing. It now ranks as one of the most influential organizations in our community. We confess to a feeling of pleasurable pride as we see this vigorous growth, viewing it as an indication of the progressive energy and determination of its enterprising members. This pleasure is the more enhanced in the knowledge that the material lies directly in our midst, and is being constantly felt in every walk of life. We confess our inability to find room for prejudice, political or religious, against an association of this character. On the contrary, we regard it as the special mission of such organizations to bind still closer together in bonds of social unity, and to hasten the collection of mankind into one common family. We are glad to see some of the superfluous energy of this Order bubbling out in a public gathering, such as is expected on the night of their grand ball on the 24th of November. From the past history of the society, as well as the perfection of the arrangements, we feel safe in guaranteeing a brilliant denouement, which shall stand as a credit to the society and the town.

COLLEGE STUDENTS' PERFORMANCE. Our College Literary Societies announce a public performance at Washington Hall, on Friday evening, Nov. 25th, when a rare treat will be afforded the public. Exhibitions of the ludicrous and the dramatic are well enough at times, but here we have something of an intellectual character, which, while it instructs, will be sure to please, and for these reasons will be sure to be very largly attended. It is fortunate Woodland has so large a hall in which to give such entertainments, for we know the programme presented will draw an immense crowd, and besides all can be comfortably seated and have a fair view of the stage. Read the excellent programme in another column.

MINSTREL PERFORMANCE.—Mr. A. Gerlach, proprietor of Washington Hall, on Thursday evening introduced to the people of Woodland an excellent minstrel troupe, composed of four gentlemen and two ladies, who gave a very pleasing and laughter-provoking entertainment. The audience was not as large as the performance deserved, but for an initial performance was quite passable. A repetition was given last evening which was very good, and much better patronized. The troupe goes from here to Marysville.

COMPOUND FRACTURE.—On Wednesday last, Edmond Lefeve, a ranchman living on the Sacramento river, 7 miles below Knight's Landing, while returning home from that place met with a serious mishap. His team ran away, and in jumping from the wagon, Lefeve was thrown under the wheel and had his right leg broken just above the instep, both bones being fractured. Dr. Ross of this place attended him, and we learn that the unfortunate man is now doing well, though it will take him some time to recover.

GRAND MASQUERADE BALL.—J. M. Wood is making arrangements for a Grand New Years Masquerade Ball, to take place at Washington Hall on Friday evening, December 30th. Invitations and tickets will soon be issued and particulars published. He is going into it with the determination to make it a grand affair, sparing no expense that will conduce to that effect.

SEWING MACHINES.—I have on hand for sale at agents' prices, a first class Eliptic, a splendid Wheeler & Wilson, and also a good Howe Sewing Machines, which I am desirous of selling, and offer them on liberal terms.

N. ELLIOTT.

STRYCHNINE.—Read & Magee have on hand a large supply of Strychnine of first-class quality. Farmers who are pestered with squirrels can rid themselves of the annoyance by administering this article in proper doses.

FOR THE FRENCH SANITARY FUND. Mr. L. Boulon will, on Monday next, forward the sum then remaining in his hands on account of band uniform, to be presented to the French Sanitary Fund.

THANKSGIVING.—Governor Haight has issued his proclamation appointing Tuesday, November 24th as Thanksgiving Day—the same as that appointed by the President.

BALL AT KNIGHT'S LANDING.—A Social Ball will be given by mine host of the Union Hotel, H. M. Hoyt, Esq., on Thanksgiving Night, Thursday, November 24th.

WILTON TROUPE.—The Wiltons are now playing at Colusa, and will probably be here next week, when our people will be favored with one or more entertainments.

TREASURER'S NOTICE.—The County Treasurer advertises in another column that there are funds on hand to pay certain warrants. For particulars see notice.

MILLINERY.—We refer our lady friends to the new millinery advertisement of Mrs R. H. Clinton & Co. They are fitting up a fine establishment in Odd Fellows' building, and a large and choice selection of goods in their line is offered to the public. Being just from San Francisco they are sure to have the latest styles. Also, agency of the Grover & Baker sewing machine.

NEW STYLE PLOW.—We have observed on our streets a new style of double plow, patented by Mr. Murry, which looks like a good thing. Two plows are hung on iron beams behind an axle with wheels, above which the driver sits and regulates the plow by a brake.

WHEAT SHIPMENTS.—Within the past three weeks over 10,000 centals of wheat of the finest quality has been shipped from this point. This ought to help the money market very materially as it has brought high prices—$1 80 @$1 85 per cental.

BOOTS TO ORDER.—If you want a good pair of boots made to fit, warranted to wear well, and at reduced prices, call at Nangle's shop (late Williams), opposite the College on Main Street, and he will fit you to a nicety.

REWARD OFFRED.—H. U. Ogburn offers a reward of $10 for the return of his well boring apparatus, which mysteriously disappeared a few weeks ago.

DEAD.—The unfortunate man, Barney Schultz, who was shot in Cacheville a few weeks ago, died on the 15th from the effects of his wounds.

SUPREME COURT REPORTER.—R. A. Thompson has been commissioned Supreme Court Reporter *vice* Crittenden, murdered by his paramour.

TEMPLARS' FESTIVAL.—We learn that the net receipts of the Festival given by the Good Templars last week, was upwards of $220.

ANOTHER RISE.—Wheat is now worth in Woodland, $1 90 per cental, and the tendency upward.

Wonderful Silver Discoveries in Lake Superior.

A letter from Sault Ste. Marie (Mich.) to the Pittsburg *Commercial* says:

The precious metals of Lake Superior, which have remained untouched above and beneath the surface where nature placed them, and where they have been known to exist for years, but remained undeveloped on account of being in the soil of a slow and short-sighted government, are about to create one of the greatest excitements this country has known for years. It has long since been known that that portion of the north shore of Lake Superior, about Thunder Bay, in Canada, was immensely rich in the precious metals, but the selfish and short-sighted policy of the government and the monopolizing tendency of the Hudson Bay Company, have thrown every obstacle in the way of its development.

Recently two American Companies have been formed and have succeeded in securing titles to an immense amount of mining territory, and commenced operations. One company has already reported at the Custom House thirty-six hundred pounds of silver lead ore, which will yield one hundred and sixty-nine ounces of silver to the ton, and which has been sent to New York to be assayed.

The other company is constructing a huge coffer-dam around a small island in Thunder Bay, called Silver Island. From this island to Thunder Cape, a distance of one and a quarter miles, and ten feet under water, can be traced a vein of silver oar running entirely across. It is the intention to sink a shaft sixty feet deep, and then drive galleries in all directions. This lode of silver ore is said to be exceedingly rich, far exceeding the celebrated Comstock lode in Nevada, which yields $139 to the ton, while that of Silver Island is $169, besides the lead and copper. The working of this mine will be attended with a great deal of expense and risk, as the island is so situated as to be exposed to the storms which are so destructive on Lake Superior.

Of this mining district, Fort William, British America, will be the center and it will be but a short time until that isolated trading post of the Hudson Bay Company will be the seat of a great business, and a city of active, thriving Yankees will take the place of the worthless Indians and sleepy Canadians, and here the question of annexation will be settled in a few years.

THOSE NEW CARS.—We find a description of those elegant passenger cars just put upon the line of the Cal. P. R. R., between Sacramento and Vallejo, in Thursday's *Union:*

"The California Pacific Railway Company have just placed upon the road between this city and Vallejo, two new passenger cars of the most elegant model. They are from the Ohio Falls Manufactory, Jeffersonville, Indiana. They are provided with Miller's patent platform and coupling apparatus, and are said to be entirely free from the possibility of telescoping in case of such an accident as that which occurred not long ago in Alameda county. Each car is mounted on a twelve-wheel truck. This makes the movement even and prevents that jolting and rocking experienced with so much inconvenience to travelers in the ordinary eight-wheel truck cars. The interior arrangements are most elegant. The paneling is we think superior to that of the Pullman Palace cars; and they are high, roomy and thoroughly ventilated. The seats are for sixty-four passengers; of the most sumptuous style and finish. Each car is lighted with five large globe lamps. The platforms are high and give room for six to eight persons to stand upon. The floors and panel work are doubled, with a vacant space of two inches stuffed with sawdust, which deadens the sound of the wheels, so that persons within (the windows being shut) can hear conversation in the ordinary pitch of voice without difficulty. The clear inside length is fifty-five feet, with six inches greater width than the old cars. We learn the cost of these moving palaces delivered here was $6,000 each. As soon as practicable the Company will procure four more of them and rule the old pattern off the road between this place and Vallejo, to the comfort and delight of travelers."

WISTAR'S BALSAM OF WILD CHERRY.—This 'medicine is a combination and a form indeed' for healing and curing all the ills which afflict us in the shape of coughs, colds, and the inflemation of the throat, lungs and chest.

J. H. EATON & SON, Sucessors to Eaton & Lawson, would respectfully inform the public that they are receiving quite an addition to their already extensive stock of family groceries, and feel confident that they can make it to the interest of persons wishing to buy, to call and examine their stock before purchasing elsewhere, as they intend to keep nothing but the best in their line. Prices will be placed as low as can be afforded in this market, and a liberal deduction will be made on all bills of five dollars or over, where cash is paid, or reasonable time will be extended to prompt-paying customers. Give them a call. n15-4

SOLD OUT.—Having sold out my interest in the grocery business heretofore conducted by the firm of Eaton & Lawson, to my partner, Mr. Eaton, this is to notify and request all parties indebted to said firm to settle up immediately, that the business of the firm may be closed up without delay. The books and accounts will be kept at the store and settlement can be made at any time. Call at once.

SPECIAL NOTICES.

NO HUMBUG.—We do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures all diseases of the mind, body or estate, and is destined to make our sublunary sphere a blissful Paradise, to which Heaven itself shall be but a side show, but we do wish to inform you that Dr. Sage's Catarrh Remedy has cured thousands of cases of Catarrh in its worst forms and stages, and the proprietor will pay $500 for a case of this loathsome disease which he cannot cure. It may be procured by mail for sixty cents, by addressing R. V. Pierce, M. D., Buffalo N. Y. For sale at Drug stores. Dr. Pierce's private Government Revenue Stamp is on each package of the genuine.

DR. S. HALL.—This successful physician, since his return from, and consultation with the eminent medical men in Europe, is daily effecting cures that have defied the skill of the most eminent physicians. Special attention is given to the Diseases of the Urinary Organs—Primary, Secondary and Chronic.

DR. HALL has just published one of the most instructive and useful pamphlets on Marriage and its disqualifications, premature decline of manhood, nervous debility, loss of energy and vital power, indigestion, pain in the head and stomach, weakness, depression, and all those deseases which result from youthful follies, excesses of maturity or ignorance in nature's laws, with treatment and cure. This pamphlet has been the means of saving thousands. Sent free to any address on receipt of six cents in postage stamps, by addressing the author, Dr. S. PAIN KILLER PROP. PERRY DAVIS & SON'S PROVID. ENCORE 1840 1870

This celebrated medicine has won a deservedly high reputation as an alleviator of pain and a preserver of health. It has become a household remedy, from the fact that it gives immediate and permanent relief. It is a purely vegetable preparation, made from the best and purest materials, safe to keep and to use in every family. It is recommended by physicians and persons of all classes, and to-day, after a public trial of thirty years—the average life of man—it stands unrivalled and enexcelled, spreading its usefulness over the wide world. Its large and increasing sale affords positive evidence of its enduring fame. We do not deem it necessary to say much in its favor, as one small bottle will do more to convince you of its efficacy than all the advertisements in the world. Give it one fair trial and you would not be without it for ten times its cost.

Directions accompany each bottle.

Sold by all Druggists.

OF BOSTON.

INCORPORATED, 1835. ASSETS, $9,000,000.

The only Company on the Pacific Coast governed by the MASSACHUSETTS NON-FORFEITURE LAW.

That there is absolutely no forfeiture in this Company these examples, furnish sufficient proof:

A. C. E. Miller, of Portland, Oregon, insured under Policy No. 13,054, for $5,000, died over six months after the premium was due and unpaid. The $5,000 was promptly paid the widow, less the unpaid premium.

J. W. Jones, of Colusa, Cal., insured under Policy No. 13,016, for $10,000, died over four months after the premium was due and unpaid. The $10,000 was promptly paid the widow, less the unpaid premium.

Is it not an object for you to insure in a Company where your policy is protected by such a wise and equitable law?

☞ This Company is not restricted to investing its funds in Massachusetts. The funds are invested in the best securities, where the largest interest is obtainable. Thus it has been enabled to return as dividends to the policy holders, in cash, during the last four years, $2,466,109 00. Dividends payable annually in cash.

NEW WEED

SEWING MACHINES!

"The Last and Best!"

The following is the fac-simile of the Medal awarded to the WEED Sewing Machines at the late Paris Exposition:

The Weed Sewing Machine Company have now at last completed their Three Standard styles of

Weed Sewing Machines.

First—Their new "Family Favorite." Second—Their new, light and noiseless Manufacturers' Sewing Machine. Thirdly—Their immense heavy "Manufacturers' Favorite." The three together combining the advantages of all others up to the present time, being the BEST made and doing the best work—has received throughout Europe, the States, and on this coast, the First and Highest Premium at each and every public Fair since 1867 (the year it was completed,) where any premium at all has been given or where its strong points have been really exhibited.

There is a difference!—All the Premiums that the WEED Sewing Machine Company claim, from the first and Highest Premium at the Great World's Fair at Paris, in 1867, up to the present time, (see small circulars), are each and every one genuine awards, or we will forfeit $500 for each and every false claim! Other Sewing Machines have had their Premiums, but how many of them in the last two years?

There is a difference! Says the *True Chronicle:* "This magnificent Sewing Machine comes forward in good time and strikes exactly the right mark." Also, the editor of the *Independent* says: "Such a Sewing Machine as the Weed—the New F. E.—we have never seen." Thus the New Weed Sewing Machine is the simplest and strongest, the last, and as we believe in modern improvement we may add the BEST Sewing Machine made as yet. It is the best Family Sewing Machine; it is the best Boot, Tailor, Saddler's Sewing Machine; it is the most successful Sewing Machine; for already its name is a household word both in Europe and America, and is rapidly taking the place of all others. Its immense central manufactory is in Hartford, Connecticut. Agents in all the principal cities in the world.

THE YOLO DEMOCRAT.

THE CASTAWAY.

No one to pity, but hundreds to blame—
Hundreds to sneer, but not one to save!—
Hundreds to jeer and to scoff at her shame!—
And beware, lest her the peace that she'll find in the grave—

Not one to aid her—though coffers run over
With silver and gold!—what is it to them?
But many will welcome her criminal lover,
Who dazzles his victims with jewel and gem!

Not one to pity, though madness should drive her
To seek peace at last beneath the dark waves!
No hand to save her—no pure priest to shrive her—
No kind friend to grant her the rest she so craves!

What is it to them tho' a life should be so lost!
What is it to them tho' her sick heart should break?
What is it to them if the terrible cost
Of her passion was won with her soul as the stake?

Not one to pity, tho' in heat and in cold—
In night time and day time she shelterless is—
She! sheltered—she—who once felt the fond fold
Of strong, tender arms, and a tempter's warm kiss!

Not one to pity, but hundreds to blame
And sneer as they pass in the broad, busy street,
And shudder'ring and cringing to give a wide berth,
Lest the taint of her touch they should happen to meet.

Not one to pity, though her fair pallid face
Once was as fresh as the breath of the morn!—
Tho' those pinched, scornful lips once were as pure
As the dew-drop impearling red rose leaves at dawn!

Not one to pity, tho' a fond mother's kiss
Once like a blessing soft touched her white brow!
Ah! could his love even grant her such bliss
As that still mother mouth could impart to her now?

Not one to pity, but hundreds to scorn—
Tho' the passion was peerless that tempted her fall!
Not one to pity, tho' suffring forlorn—
Without even a shelter in stable or stall?

Helpless and hopeless and homeless! The Son
Once loved and pitied and blessed such a one!
He keeps all records of deed and of vow!—
Who knows but a crown awaits even thy brow?

Gold gilds not the shame of the deed in His eyes!
As it gilds all the sins and the sufferings of earth!
And in mercy His ears will list to thy sighs,
And pity the sorrow thy shame gaveth birth!

And the cold whited sepulchres that every day pass
In their velvetted pride, and scoffingly sneer,
When called to the judgment God gives us at last
May sigh for the soul that they trample on here!

Miscellaneous Items.

THE farmers of Berryessa Valley have nearly all finished putting in their grain for next year, and are now patiently awaiting the winter rains.

A PIECE of quartz weighing twenty-seven pounds, and so thick with gold that it was worth $3,100, was found at Fir Gap, in Sierra county, last week.

EXPERIENCE in Virginia has demonstrated the fact that it takes a negro juryman just four minutes to go to sleep after he has taken his seat in the box.

THE Channel Islands are just now crowded with wealthy French families. Jersey and Guernsey are remarkable for cheapness of living and salubrity of climate.

THE Vallejo *Chronicle* says that the Redington Company is shipping about one hundred flasks of Quicksilver from their mine in Lake county every eight or ten days.

THE McCrary farm, in the oil regions of Pennsylvania, is said to have been sold for $1,000,000. The average daily yield during the month of August was 1,659 barrels.

JAMES K. POLK'S administration, covering the whole of the Mexican war, cost $165,381,017,24. The expense of Grant's first year of "peace" was nearly $400,000,000!

THE thousand Chinamen who are working on the Chatanooga Railroad in Alabama, do not give satisfaction, and the experiment is not likely to be repeated in that section.

SEVERAL hundred sheep, mostly from the valley counties, have recently perished in the mountains of Mariposa county, from eating a poisonous weed known as the camphor weed.

THE following good one on that $100,000, says the Nevada *Transcript*, was perpetrated by a citizen of that place: Johny Majors, riding along on his stage, sang out "I say John, did you win that $100,000?" John—"No, that $100,000 has gone to hell, man"—Hellman.

THE product of chewing tobacco in Richmond, Virginia, during the last twelve months, was 14,230,032 pounds, an increase over the corresponding period of 1868 and 1869 of 2,124,686 pounds. The product of smoking tobacco was 1,181,052 pounds, an increase of 395,925. The amount of tax paid on smoking and chewing tobacco was $5,062,578.

A MOUNTAIN of black marble has been discovered in Cape Girardeau county, Missouri, about half a mile from the Mississippi river. The mountain is ninety feet high and three fourths of a mile long, and yields a marble, it is said of the most exquisite beauty of grain and susceptibility of finish. If this story, which is told by the Missouri Democrat, be true, the owner of that mountain has a fortune within his grasp.

THE new method of making butter by what is known as capillary is of value in several particulars. The process is a simple one. It consists merely in tying the cream up in a bag, putting it in a hole, and leaving it there for twenty-four hours. At the end of that time capillary attraction will have drawn out all the buttermilk, and left only the butter. To women who have broken their backs churning, the capillary process will be a welcome discovery.

Registered Vote of New York.

On the 3d instant the *Union*, of this city, states that the number of votes registered in New York this year was 20,000 less than last year. It did not, however, inform the public how many votes were registered last year. We are now in a position to supply the omission:

Total vote registered in 1869	143,171
Total vote registered in 1870	142,666
Falling off	505

The decrease is chiefly from the Eighth and Fifteenth wards, which are heavily Radical, and where the Radical repeaters have heretofore had everything their own way. On the last day of registration they were utterly demoralized for want of leadership, many of their former chieftains being, like the infamous Theodore Allen, in prison under charge of felony. The total vote polled last year was 116,272, or 25,798 less than the number registered that year, and 26,236 less than the registered vote of this year. We have as yet been unable to discover any evidence of Democratic frauds hitherto perpetrated in the vote of New York City; but the last registration, as well as the drafts of 1864, have demonstrated great Radical frauds not only in the census, but in the registration in active wards last year and the year previous. If the Radical rowdies commissioned by Marshal Sharpe do not prevent it the total vote of New York to-day will be about 135,000, and 100,000 of that will be for the Democratic ticket.—*Sac. Reporter 4th.*

TO PHYSICIANS.

NEW YORK, Aug. 15th, 1868.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by placement with spirits obtained from Juniper Berries; very little sugar is used, and a small portion of spirits. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of praparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,

H. T. HELMBOLD,

Chemist and Druggist of 16 Years' Experience.

[From the largest Manufacturing Chemists in the World.]

NOVEMBER 4, 1854.

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN,

Firm of Powers & Weightman, Manufacturing Chemist, Ninth and Brown Sts., Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU, for weakness arising from indiscretion. The exhausted powers of Nature which are accompanied by so many alarming symptoms, among which will be found, Indisposition to Exertion, Loss of Memory, Wakefulness. Horror of Disease, or Forbodings of Evil; in fact, Universal Lassitude, Prostration, and inability to enter into the enjoyments of society.

The constitution, once affected with organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or Insanity ensues.

HELMBOLD'S FLUID EXTRACT of BUCHU, in affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant dangerous remedies, Copaiva and Mercury, in all these diseases.

Use HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists and Dealers everywhere. Price $1 25 per bottle, or six bottles for $6 50. Delivered to any address. Describe syptoms in all communications. Address H. T. HELMBOLD., Drug and Chemical Warehouse, 594 Broadway, N. Y.

DR. PIERCE'S ALT. EXT. OR GOLDEN MEDICAL DISCOVERY

This is the most thorough blood purifier yet discovered, and CURES ALL HUMORS, from the worst scrofula to a common eruption. Pimples and blotches on the face, and scaly or rough skin, which are such annoying blemishes to many young persons, yield to the use of a few bottles of this wonderful medicine. From one to eight bottles cure salt rheum, erysipelas, scald head, ringworms, boils, scaly eruptions of the skin, scrofula sores, ulcers and canker in the mouth and stomach. It is a pure medicinal extract of native roots and plants, combining in harmony nature's most sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick. It is a great restorer for the strength and vigor of the system. Those who are languid, sleepless, have nervous apprehensions or fears, or any of the affections symptomatic of weakness, will find convincing evidence of its restorative power upon trial. If you feel dull, drowsy, debilitated and despondent, have frequent headache, mouth tastes badly in the morning, irregular appetite and tongue coated, you are suffering from torpid liver or "billiousness." In many cases of "liver complaint" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. For the cure of habitual constipation of the bowels it is a never failing remedy, and those who have used it for this purpose are loud in its praise. In bronchial, throat and lung diseases it has produced many remarkable cures, where other medicines had failed. Sold by druggists at $1.00 per bottle. Prepared at the Chemical Laboratory of

EVERY FAMILY SHOULD HAVE IT.

Dr. Guilmette's

Extract of Juniper.

As a delicious tonic, healthful and curative for all diseases of the kidneys and bladder, loss of appetite, dyspepsia, nervous debility, etc., it is unrivalled. To females it is especially recommended for all irregularities of the menses and disorders peculiar to their system, as it can be used with perfect safety. In malarious districts it is a great preventive of fever and ague. R. H. McDONALD & CO. Agents, cor. of Pine and Sansome sts., San Francisco [o15-1y
